

Name \_\_\_\_\_

You are currently enrolled in the AP Chemistry class for this fall. Realize that there is a required summer homework assignment that goes along with this class. This is to keep you current with many of the topics learned in the Chemistry I class like writing and naming formulas. You will need to stop by Mrs. Wilson's room, S-14 and pick up a textbook to go along with this class before the end of the day, Tuesday, June 3, 2014. Over the summer you are to read the first two chapters of the book, and the beginning of chapter 3 (writing and balancing equations). Then you will need to log onto a computer and go to the following website and complete some questions. The website is through Indiana University in Bloomington and it is a reputable site that I have used in class many times before. It is the same one used in Chemistry I. It is [www.calm.indiana.edu](http://www.calm.indiana.edu). Once there the screen will say "Calm: computer assisted learning system". Under the course Login select High School. This will take you to a screen where you will have to select your school. Scroll down until you come to Northwestern High School and select it. Now select AP Chemistry and you will be prompted to put in your user name and password. I have already set up an account for you and your user name and password are listed below.

This will bring you to the screen where the assignment can be found. It is under Topic I: Summer Homework. Click on it and you will find 5 more subcategories labeled:

Section 1: Ch. 1 May 30 – June 10

Section 2: Ch. 1 June 13 – June 24

Section 3: Ch. 2 June 27 – July 8

Section 4: Ch. 2 July 11 – July 22

Section 5: Ch. 3 July 25 – Aug. 5

Click on these sections and you will find the questions to answer within the time frame listed. The questions will only be available during the time frame. The two week window for each section should be plenty of time for you to accomplish each section. If you ever get stuck and cannot figure out a question just click on the menu bar at the top and it will take you back to the main screen. Everything that you finish will automatically be saved so that you can answer a few questions at a time and come back later to do the rest. There will be a test over chapters 1 and 2 when school starts back on August 9, 2014. If you need help, please e-mail me at my school address [linda.wilson@nwsc.k12.in.us](mailto:linda.wilson@nwsc.k12.in.us) or call me at my home. The number is 459-5692.

Sincerely,

Mrs. Linda Wilson
